

Orbit2 Performance Report — Atlassian

Generated 2026-07-18 · Prepared for Steve Mojsak, Atlassian Alliance Manager, Communardo

Overall Score

0.3 / 100 (Needs attention)

85+ Strong · 70–84 On track · below 70 Needs attention. Weighted average of the categories below, per docs/methodology.md.

Every score traces back to a target/actual pair sourced from a CRM export, portal screenshot, or finance report — see the description under each sub-metric in the Category Detail section for exactly what it measures and why it matters.

Category Summary

Solutions	0	Needs attention	12%	2026-Q3
Services	0	Needs attention	10%	2026-Q3

Category Detail & Explanation

Every sub-metric behind every category score, with what it measures, its target vs actual, its weight, and its source.

Sales Performance — 0 / 100

Weighted 18% of the overall score.

Sub-metric	Actual / Target	Weight	Score	Source
Pipeline growth QoQ	0 / 500000 EUR	35%	0	—
Net new pipeline value created this quarter vs last, sourced from CRM. Signals whether top-of-funnel demand generation is keeping pace with targets.				
Bookings/revenue attainment vs quota	0 / 1200000 EUR	40%	0	—
Closed-won bookings this quarter against the quota set with Atlassian/leadership. The single clearest signal of commercial performance.				
Win rate on registered deals	0 / 35 %	25%	0	—
Percentage of Deal-Registered opportunities that closed won. Reflects how effectively registered pipeline converts to revenue.				

Marketing — 0 / 100

Weighted 8% of the overall score.

Sub-metric	Actual / Target	Weight	Score	Source
Co-marketing campaigns executed vs planned	0 / 6 count	40%	0	—
Joint marketing activities (webinars, content, events) delivered against the quarter's plan with Atlassian.				
MDF utilization rate	0 / 100 %	30%	0	—
Share of allocated Market Development Funds actually drawn down and spent. Low utilization risks funds being reclaimed or programs being deprioritized.				
Marketing-sourced leads	0 / 40 count	30%	0	—
Leads generated directly from marketing activity, feeding the sales pipeline.				

Market Visibility — 4.2 / 100

Weighted 8% of the overall score.

Sub-metric	Actual / Target	Weight	Score	Source
Marketplace app rating	0 / 4.5 stars	25%	0	—
Average star rating of Communardo's apps on the Atlassian Marketplace — a public signal of product quality visible to Atlassian and prospects.				
Partner directory profile completeness	0 / 100 %	20%	0	—
How complete and up to date Communardo's public profile is on the Atlassian Partner Directory.				
Press/analyst mentions volume	2 / 12 count	25%	16.7	data/news_log.csv (live count)
Count of public mentions of Communardo found by the automated web scan — the only metric in this scorecard driven				

entirely by live, automated data rather than manual entry.

Case studies/success stories published

0 / 4 count

30%

0

—

Customer success stories published and available to share with Atlassian and prospects.

AI Adoption — 0 / 100

Weighted 8% of the overall score.

Sub-metric	Actual / Target	Weight	Score	Source
Internal AI tool adoption rate (e.g. Rovo)	0 / 100 %	40%	0	—
<i>Share of relevant staff actively using Atlassian's AI tooling (e.g. Rovo) internally — a leading indicator Atlassian evaluates for AI-forward partners.</i>				
AI-related customer engagements delivered	0 / 8 count	40%	0	—
<i>Number of customer engagements this quarter that specifically involved AI capability (Rovo, AI-powered workflows, etc.).</i>				
AI enablement certifications completed	0 / 15 count	20%	0	—
<i>Staff certifications completed in Atlassian's AI-related enablement tracks.</i>				

Business Planning & QBRs — 0 / 100

Weighted 12% of the overall score.

Sub-metric	Actual / Target	Weight	Score	Source
QBR cadence adherence	0 / 4 count	40%	0	—
<i>Number of Quarterly Business Reviews actually held with Atlassian against the expected cadence.</i>				
Joint business plan goal attainment	0 / 100 %	40%	0	—
<i>Progress against the goals set out in the joint business plan agreed with Atlassian.</i>				
QBR action item closure rate	0 / 100 %	20%	0	—
<i>Share of action items from prior QBRs that were actually closed out — a proxy for how seriously the partnership follows through.</i>				

Registrations (Deal Reg / PVR / Service Reg) — 0 / 100

Weighted 12% of the overall score.

Sub-metric	Actual / Target	Weight	Score	Source
Deal Registration volume & approval rate	0 / 30 count	40%	0	—
<i>Number of deals registered with Atlassian and approved, protecting margin and signaling active pipeline to the vendor.</i>				
PVR (Partner Value Registration) volume/approval	0 / 15 count	30%	0	—
<i>Registrations under Atlassian's Partner Value Registration program, recognizing partner-sourced value beyond a single deal.</i>				
Service Registration	0 / 10 count	30%	0	—

volume/approval				
<i>Registered services engagements, recognizing services-attach as part of the partner value delivered.</i>				

3rd Party Vendors & Co-selling (AWS, Google, GSIs) — 0 / 100

Weighted 12% of the overall score.

Sub-metric	Actual / Target	Weight	Score	Source
Active joint engagements with SIs/ISVs	0 / 8 count	20%	0	—
<i>Count of active joint engagements with other system integrators or ISV partners.</i>				
Revenue influenced via 3rd-party referrals	0 / 300000 EUR	20%	0	—
<i>Revenue where a third-party vendor or partner referral was a material factor.</i>				
AWS co-sell deals (ACE) registered	0 / 10 count	20%	0	—
<i>Deals registered in AWS's ACE (APN Customer Engagements) co-sell program.</i>				
Google co-sell engagements	0 / 6 count	20%	0	—
<i>Joint engagements run through Google's partner co-sell motion.</i>				
GSI joint pipeline value	0 / 400000 EUR	20%	0	—
<i>Pipeline value being jointly pursued with Global System Integrators.</i>				

Solutions — 0 / 100

Weighted 12% of the overall score.

Sub-metric	Actual / Target	Weight	Score	Source
Number of solutions created	0 / 6 count	25%	0	—
<i>Distinct packaged solutions built this quarter (repeatable offerings, not one-off custom work).</i>				
Number of solutions sold	0 / 15 count	30%	0	—
<i>Instances of a packaged solution actually sold to a client.</i>				
Revenue generated from solutions	0 / 400000 EUR	30%	0	—
<i>Revenue directly attributable to packaged solution sales.</i>				
Solution vertical coverage	0 / 5 verticals	15%	0	—
<i>Number of industry verticals with at least one packaged solution, out of the target range — breadth of the solution portfolio.</i>				

Services — 0 / 100

Weighted 10% of the overall score.

Sub-metric	Actual / Target	Weight	Score	Source
Services revenue sold to clients	0 / 600000 EUR	60%	0	—
<i>Total services revenue (implementation, consulting, managed services) sold this quarter.</i>				
Number of clients who purchased	0 / 25 count	40%	0	—

services				
Distinct clients who purchased any services this quarter — breadth of services attach.				

Key Deals

Deal-level detail (company, contract value, products/services sold, vertical, Atlassian account category) will appear here once entered in `data/deals.csv`.

No deals logged yet. Add rows to `data/deals.csv`, or drag a deal sheet into the Evidence Library and Claude will file it here.
